To solve this problem the students have now one last solution: to find by themselves a practice period / internship in a construction company related to activities of execution works for civil engineering. **Students must collect from FILS secretariat** a printed form of an agreement for internship, which must be filled by the student in 2 copies, signed and stamped by the company and hand in at **FILS secretariat till 6th of July 2017**. The agreement must be accompanied by a certificate (in original form, signed, stamped and with a registration number) where the company declares that it has its activity object is execution works for civil engineering and agrees that the student is carrying out the internship from 10-28th of July.

Students who intend to have the internship abroad must hand in an official request at **FILS secretariat till 6th of July 2017**.

All students who are accepted for the practice period (within UTCB organization or within internships) in this academic year must attend the **work security training on 10th of July 2017**.

Students who do not meet all these requirements **will not be accepted for defending the practice period examination in this academic year.**
