

Angajam PROIECTANTI de STRUCTURI din LEMN LAMELAR Romana / Engleza / Franceza

Echipa de proiectare a **GLULAM SA** (sediul Targoviste) cauta doi colegi absolventi ai Universitatii Tehnice de Constructii sau studenti in an terminal, pentru posturile de ingineri proiectanti structuri de rezistenta din **glulam**.

Activitatea in cadrul biroului de proiectare consta in realizarea calculului structural de ansamblu, dimensionarea elementelor structurii si a conexiunilor, intocmirea planurilor de detaliu si montaj, precum si a partii scrise. Deasemenea, biroul de proiectare este angrenat in comunicarea cu arhitectii, constructorii si beneficiarii lucrarilor si vizitarea santierelor aflate in desfasurare.

Experienta in domeniu nu este obligatorie, colegii nostri sunt deschisi si pregatiti sa va ajute ca sa aprofundati. Se impun insa, seriozitatea, responsabilitatea si dorinta de a invata. Veti participa la realizarea de proiecte spectaculoase cu structuri din **glulam** sau combinate cu **CLT (X-LAM)**. <http://glulam.ro/images/Certificari/catalog.pdf>

Mediul de lucru este linistit, prietenos si respectuos. Veti gasi un sprijin permanent in cadrul companiei.

Ne puteti face o vizita oricand.

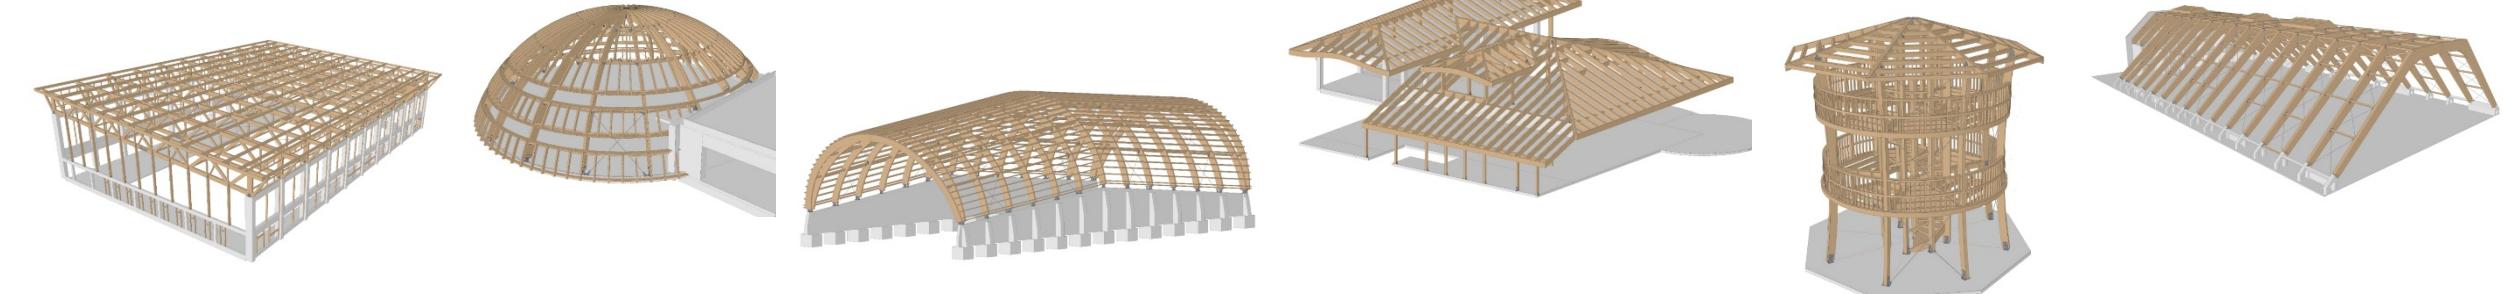

Asteptam cu interes CV-urile.

Compania **GLULAM SA** produce structuri din lemn lamelar si este lider in realizarea si montajul structurilor de mari dimensiuni. In acest an demareaza si productia de panouri din **CLT (X-LAM)**.

We are looking for DESIGNERS of WOODEN LAMINATE STRUCTURES

GLULAM SA's (Targoviste) design team is looking for two colleagues, graduates of the Technical University of Construction or students in their final year, for the position of Design Engineers of **glulam** resistance structures.

The work in the design office consists of performing the overall structural calculation, dimensioning the elements of the structure and the connections, drawing up the detail and erection plans, as well as the written part. The design office is also involved in communicating with architects, builders and beneficiaries of the works and visiting construction sites in progress.

Experience in the field is not mandatory, our colleagues are open and ready to help you learn more. However, seriousness, responsibility and the desire to learn are required. You will participate in the realization of spectacular projects with **glulam** structures or combined with **CLT (X-LAM)**. <http://glulam.ro/images/Certificari/catalog.pdf>

The working environment is quiet, friendly and respectful. You will find permanent support within the company.

You can visit us at any time.

We look forward to receiving your CVs.
